38th European Symposium on Occultation Projects (ESOP)

Paris Observatory
2019 August 30th – Sept 3rd

Welcome adress

Bruno Sicardy, Thierry Midavaine

Welcome to ESOP back in Paris !

(previous : 2004 Aug 27-28 ESOP XXIII)

- 80 participants (~20 on the waiting list !)
- 13 accompanying people
- 17 countries
 - Europe : Belgium, France, Germany, Greece, Italia, Poland, Portugal, United Kingdom, Spain, Switzerland, Tchequie
 - World : Algeria, Argentina, Australia, Brazil, China, USA
- A world wide gathering of Amateur and Professionnal Astronomical Clubs, Societies and Observatories

Thanks to Local Organising Comitee

Bruno Sicardy

Josselin Desmars

Thierry Midavaine

Pierre Barroy

Felipe Braga-Ribas

Emmanuel Brochard

François Colas

Joana Marques Oliveira

Gustavo Benedetti Rossi

Thanks to Paris Observatory

- Laurent Trabaries
 - Odile Marcel-Montiel
 - Michel Abgrall
 - Baptiste Chupin
 - Claude Catala
-
- Special Thanks for Poster printings to Patrick Duchemin from SAF & Ecole Estienne

Many thanks to our Sponsors :

UNISTELLAR

Budget and Balance Sheet

- Emmanuel Brochard is preparing the detail for the closing of the conference

Sessions Scheduling

Saturday

- A Opening Session
- B1 How to perform B2 O.W. B3 Francophone
- C1 Time Issues C2 Tangra
- D1 Demo D2 IOTA ES D3 Visits :
SYRTE
Arago Refractor

Sunday

- in Cassini room Plenary and Poster Sessions

Chairmen of the Sessions

- A : Josselin Desmars
- B1 : Wolfgang Beisker
- B2-C2 : Hristo Pavlov
- B3 : Arnaud Leroy
- C1 : Thierry Midavaine
- D1 : Pierre Barroy

- E : Thierry Midavaine
- F : Konrad Guhl
- G : Bruno Sicardy
- H : Pierre Barroy

Thanks to collect the resolutions induced by the session for the closing

Poster Sessions J K

Posters J	Occultation results and projects			
J1	Promise and Problems of Deploying Multiple Stations for Asteroidal and Outer Solar System Occultations	Dave W.	Dunham	
J2	An occultation by (2875) Lagerkvist in > 2018 - Two unexplained observations	Tim	Haymes	
J3	The International Astronomical Observatory (IAS) in Hakos/Namibia	Wolfgang	Beisker	Karl-Ludwig Bath
J4	Analysis of 31 stellar occultations by Centaur and Transneptunian Objects	Flavia Luane	Rommel	
J5	Grazing occultations by the Moon in Belgium	Roland	Boninsegna	
J6	Planetary and asteroidal occultations in Belgium	Roland	Boninsegna	
J7	Asteroidal Occultation Census	Dave	Herald	
Posters K	Observatories			
K1	European location of occultation watchers attending ESOP	ESOP		
K2	Salvia Observatory	Thierry	Midavaine	
K3	TJMS	Pierre	Barroy	
K4	Dourbes Astronomical Observatory	Roland	Boninsegma	
K5	Dinastro Observatory	Jean-Jacques	Castellani	
K6	Freconrupt Observatory	Patrick	Ditz	

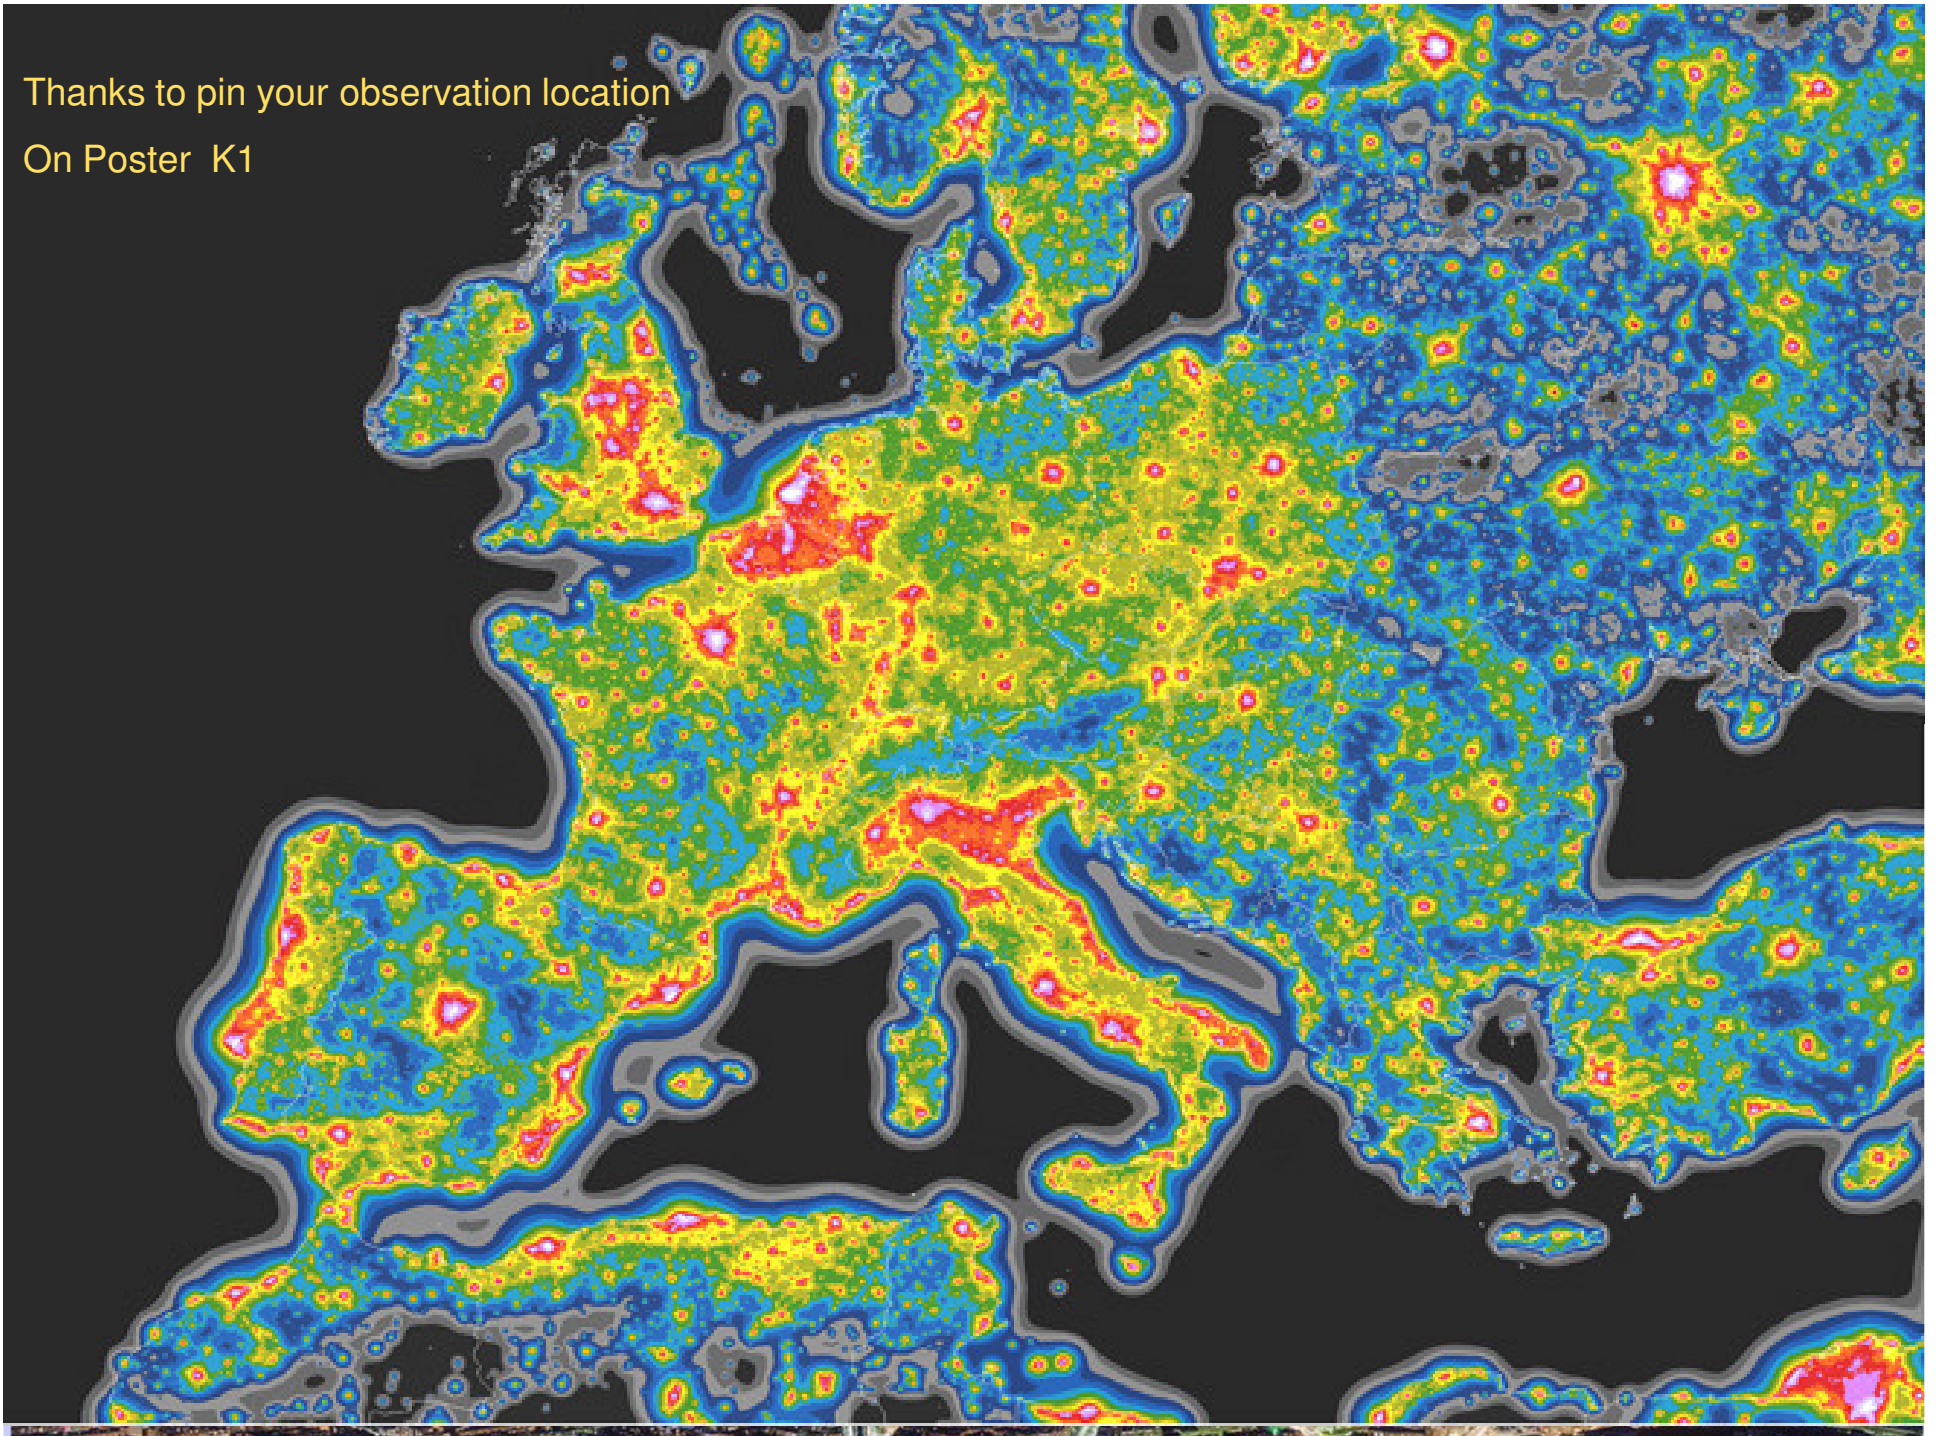

Poster Sessions and Sponsor Exhibits L M

Posters L		Cameras and Time stamping setup	
L1	Low cost setup for numerical camera	Lionnel	Rousselot
L2	CHRONOFLASH, a simple device for asteroid occultation timing	Jean-Yves	Prado
L3	TimeBox : A standard device for timing astronomical occultations	Cesar	Valencia
L4	New digital camera with on board GPS time inserter	Stefan	Meister
L5	A fast digital CCD Camera with precise NTP time stamping for the Linux operation system	Wolfgang	Beisker
L6	Camera Time Calibration with SEXTA.	Dave	Gault
Exhibit M			
M1	Unistellar eVscope system	Emmanuel	Arbouch
M2	QHY CCD products	Qiu	Hongyun
M3	Cameras from Raptor Photonics	Olivier	Bernard

Thanks to pin your observation location

On Poster K1

Monday Tuesday Optional program

Monday

8:45 – 9:00 Coach start from Paris Observatory (North gate)
61 avenue de l'Observatoire

Fontainebleau Castle Visit

Planète Sciences : Buthiers and TJMS Observatory

Tuesday

12:00 Chez Jacqueline Restaurant

43 rue de la Voie Verte 91600 Savigny sur Orge

14:00 SAF Juvisy Camille Flammarion Observatory

Monday and Tuesday pgm Special thanks to

- Jean-Baptiste Bellier
- Marc Serrau
- Jean-Michel Vienney
- Michael Irzyk
- Laurent Daverio

- Francis Oger
- Jean Guérard
- Stéphane Neveu
