

Workshop on the future of solar radioastronomy in France

Program :

June 29:

- * 14h00-14h15 : Welcome and introduction to the workshop A. Kerdraon

Chairman : G. Aulanier

- * 14h15-15h45 : CMEs ,large scale coronal waves

CMEs A. Vourlidas

Large Scale waves A. Warmuth

- * 15h45-16h15 : Break

Chairman : S. Krucker

- * 16h45-17h45 : M-dm diagnostics of particle acceleration A. O. Benz

Propagation, interplanetary injection K.-L. Klein, N. Vilmer

- * 17h45-18h15: Quiet sun G. Chambe

- * 19h00: cocktail "apero" salle Uranie

June 30:

Chairman : N. Vilmer

- * 09h00-09h30 : Space weather T. Dudok de Wit

- * 09h30-10h30 : Radio projects : FASR, CSRH, LOFAR, MWA

Speakers : T.Bastian, Y. Yan, M. Wise, J. Kasper

- * 10h30-11h00 : Break

chairman : S. Pohjolainen

- * 11h00-11h30 : m-dm spectrographs in Europe A. Nindos

- * 11h30-11h45: The Lofar Solar key Program : G. Mann

- * 11h45-12h15 : Overview of future solar instrumentation G. Trotter, K.-L. Klein

- * 12h15-12h45 : NRH status and possible evolutions A. Kerdraon

- * 14h00-15h45 : Open discussion

Moderators : M. Pick, A. O. Benz

- * 15h45-16h00 : Conclusion A. Kerdraon
