

CHARNAY Benjamin

LESIA, Observatoire de Paris

5, place Jules Janssen 92195 Meudon

Email: benjamin.charnay@obspm.fr

Phone: 01 45 07 76 01

Personal web page: <http://www.lmd.jussieu.fr/~bclmd/home.html>

Personal

Birth: January 2, 1986 in Heidelberg (Germany)

Citizenship: French

Languages: French (native), English (fluent), German (notions)

Education

2010 - 2013 : PhD student at the Laboratoire de Météorologie Dynamique,
University Pierre and Marie Curie, Paris

Supervisors: François Forget and Sébastien Lebonnois

Dissertation: "[Tropospheric dynamics and climatic evolution of Titan and the early Earth](#)".

2009 - 2010 : Master 2 Université Pierre et Marie Curie (Paris)

Speciality: Ocean, Atmosphere, Climate and Spatial Observations (with honors)

July 2009 : « Agrégation » in Physics, competitive national exam (14th out of 1500) to allow
teaching at college level

2007 - 2008 : Master 1 in Physics (with highest honors)

2006 - 2007 : Bachelor in Physics (with high honors)

2006 - 2010 : trainee civil servant, Ecole Normale Supérieure de Lyon
(position obtained after highly competitive national exam)

July 2004 : Baccalauréat : high school degree (with highest honors)

Current position

Research associate at LESIA, Observatoire de Paris (Meudon, FRANCE) supervised by Bruno Bézard
and Anthony Boccaletti. Grant : PSL fellowship

Past position

2014-2016 : NASA fellow at the University of Washington (Seattle, USA)

Research internships

March 2010 - July 2010: "[Modelisation of the climate of extrasolar planets](#)"

advisor: François Forget (University Pierre and Marie Curie, Paris)

May 2008 - July 2008: "[Study of the ionosphere of Saturn](#)"

advisor: Mariana Galand (Imperial College, London)

June 2007 - July 2007: "[Study of a laser trap for a micro-condensate of Bose-Einstein](#)"

advisor: Fabrice Gerbier (Ecole Normale Supérieure, Paris)

Research interests

- Exoplanets and brown dwarfs

- Planetary atmospheres (Earth, Titan, Mars and Venus)

- Paleoclimates and atmospheric evolution

Computing skills

Environnement: Linux, Windows and Mac OS
Programmation: Fortran, C, Matlab and Python

Teaching

2010 - 2013: teaching at the University Pierre et Marie Curie
Physics for biology undergraduate students (90 h)
Experimental physics (30 h)
Supervising physics projects for undergraduate students (60 h)

Awards & honors

July 2014: PSL Fellow
Jan 2015: Award for the best thesis from the Comité Français de Géodésie et Géophysique
July 2014: NASA Postdoctoral Fellow
Dec 2013: Price of the best oral presentation, Conference Exobiology Young Researcher (Paris) for "Exploring the possible climates of the Archean Earth with a 3D GCM".
Dec 2013: Outstanding student paper at the AGU fall meeting 2013 for the poster "Is Titan's dune orientation controlled by methane storms".

Community service

- Science reviewer for NASA New Frontiers Program
- Referee for 8 scientific journals: Journal of Geophysical Research (Planets), Geophysical Research Letter, Icarus, Planetary & Space Sciences, Astrophysical Journal, Astronomy & Astrophysics, Monthly Notices of the Royal Astronomical Society and Astrobiology

Publication list

- 1) **B. Charnay**, B. Bézard, J.-L. Baudino, M. Bonnefoy, A. Boccaletti, R. Galicher. "A self-consistent cloud model for brown dwarfs and young giant exoplanets: comparison with photometric and spectroscopic observations". *submitted to The Astrophysical Journal*
